Covid-19, whether real, imagined or blown outta proportion, there lies behind this scene a very real threat to us all non-elite. Check out Senate Bill HR 6666 116 Congress. If that doesn't give you cause for pause, then this chip patent Code 060606 should. The well-known elitist Bill Gates is funding Powerhouse behind its production. Further, this guy is the man behind the curtain for the Imperial College London, which is where all statistics aired on mainstream media outlets (all of which in the past have been far below actual numbers), are modeled. Over in China Covid-19 immediately ended all protests in Hong Kong, Wuhan and another major city close by. Convenient.

Following the “pandemic” one could easily see that people are being especially agreeable with anything governments implement, while too accepting “stimulus bills” without question or protest. Trillions of tax dollars have been now used by government without so much as question from the frightened sheep in the United States. For your thoughts, 330 million residents reside here in the USA, give or take. A mere \$1,200 was given to each pending approval. The 2.2 trillion dollar bill could have allowed a million each without touching the change on that bill!! Corporate America is booming while little guys like Mom-and-Pop stores go under.

Bill Gates has recently invested in medical supplies, along with many elite entities, but did so a month or more before this “pandemic” struck. Wake up out there!!! People have died, sure. Yet each year there's between 40-100 thousand flu deaths in America alone. Sucks, but don't let government use fear to tighten the leash on you. “Never allow a good crisis to go to waste” -

a very familiar statement. Socialism = Communism & Communism = Totalitarianism. Resist government control or be forever held prisoner by those freedoms you've relinquished to them. People seem to forget that governments only are as powerful as you let them be. All this Dog & Pony Show politics have created complacent and ignorant fools ready to believe any load of crap their favorite candidate puts out. Bill Gates openly speaks for population control. Do you trust guy making some vaccine for you? Check out those before mentioned bills, folks. It's about to get real. Don't be beaten by fear. It's the type of weapon which time and time again elitists have used to win wars they couldn't otherwise overcome. Don't give up without a fight. Follow the money and you'll see what's really going on.

If you have family or friends locked up in prison or jail wherever – contact them. These are conditions where any kind of flu can be serious. Congested environments are breeding grounds for disease and prison is an ugly place to die. It's oppressive, it's lonely, hostile.

In closing, how about Gregg Abbott? Whether parole eligible or not, Mr. Abbott states, “We're not letting anybody go”. I feel for anyone who came here with 2-years and dies of Covid-19. Parole is a joke when it's “discretionary”.
