

EASTHAM PLANTATION RECOGNITION

I would like to encourage all to address Prisoner mail using the Plantation moniker (e.g., Eastham Plantation, Darrington Plantation, etc.). This is an important first step in reform and eventual abolition. In a name lies recognition, admission, and acceptance of what a thing is. For example, if you were to address this level of the abyss as Eastham College, you would do so because you recognized it as such; in doing so, your address would serve as an admission of your belief; and, your admission of belief would then serve as a demonstration of your acceptance of the thing for what you recognize and admit the thing to be. All—Every One, without exception—prisons in the U.S. and its imperial territories are PLANTATIONS, for every one of them survives, thrives in fact, on the exploitation of human labor resources. Please address, continue to address, begin to address them for what they are, Plantations, in speech as well as writing. This is an image that the public must see. Our betterment lies not in the hands of politicians, but in the hands of 300,000,000 people. I wish I could get my 2,000,000 slave brothers and sisters to use the Plantation moniker, for this very reason, RECOGNITION. Maybe you can help by broadcasting this message. Call it a UNITY building program. We can rise together, or we can fall apart; the choice is ours to make. Choose what you will, I choose to unite.

Let us, together, build a better world for all.

Alternate ending . . . apart. The choice is ours; it is our fight. Choose what you will. I choose UNITE!
